EDUCATION

Seneca College
Honours Bachelor of Data Science and Analytics
GPA: 3.9/4

Toronto, CA
Aug. 2022 – April 2026

EXPERIENCE

Research Assistant

Seneca Applied Research

Toronto, CA
Aug. 2025 – Present

- Evaluated **10+ planning policies**, identifying gaps and constraints to inform UPA sustainability recommendations.
- Prepared reports and presentations, translating findings into actionable insights for stakeholders.

Project Control Intern

Arup

Toronto, CA
May 2024 – Aug. 2025

- Automated Time Transfer and Subconsultant Invoice processes for the **Scarborough Subway Extension (SSE)**, reducing manual effort by **38%** and improving financial reporting accuracy using **SQL, VBA**, and Power Query.
- Prepared weekly Change Order Reports for the **Finch West LRT (FWLRT)**, tracking **100%** of new requests and ensuring compliance with updated Change Management processes.
- Supported document classification workflows for the **Finch West LRT**, reducing schedule delays and responsibility disputes by **12%** by distinguishing IFC vs. post-IFC drawings using **rule-based classification** over document metadata and structured attributes.
- Consolidated data from **5+ disciplines** to deliver monthly **SSE** financial reports, identifying major variances (**>10%**) and supporting timely Change Order approvals.
- Developed interactive **Power BI** dashboards, increasing reporting efficiency by **30%**, by automating visualizations of Invoice Fees, Billable Hours, and Invoicing processes.
- Resolved **15+ invoice disputes** for **SSE**, recovering funding for scope expansions worth **\$500K+**.
- Streamlined project cost account management, cutting reconciliation time in **half**, by automating charging code checks with **SQL** and **VBA**.
- Coordinated traffic and transit control meetings with **TTC, STRABAG, and the City of Toronto**, supporting lane closures, bus stop relocations, and construction staging for **SSE**.

Document Controller

Arup (Equinix – TR6, The York Club, Coboconk, CA)

Toronto, CA
May 2024 – Aug. 2025

- Reduced document processing and retrieval time by **26%** on the **SSE** by automating submission tracking, approval workflows, and version control across **ProjectWise, Aconex, and SharePoint**.
- Developed lightweight **NLP pipelines** for project communications, reducing manual review effort by **35%** and reporting turnaround time by **24%** using automated issue classification and entity extraction.
- Supported multidisciplinary teams by maintaining controlled document registers and ensuring timely, accurate distribution of approved project information.
- Designed and implemented a streamlined drawing submission workflow, automating information transfer between registers and logs to increase document accuracy by **58%**.

PROJECTS

Sharepoint Site Rebuild (Arup PPCM Team)

- Utilized **SharePoint** to rebuild Resourcing and Digital pages for Project Control tasks.
- Consolidated essential tools for Invoicing and Risk Management into a user-friendly interface.
- Conducted project scheduling and planning using **P6 Primavera** in a collaborative team.

Arup Resource Planning Dashboard

- Developed **SQL** queries and Power Query transformations for multi-source CRM data extraction.
- Built **Power BI** visualizations to automate project allocation and resource distribution checks.

TECHNICAL SKILLS

Languages: Python, R, Java, **SQL**, SAS, HTML, CSS, JavaScript

Tools: **Power BI**, Tableau, **ArcGIS**, **SharePoint**, Power Apps, Power Automate, **VBA**, **P6 Primavera**

Developer Tools: Git, ProjectWise, Procore, Aconex, Bluebeam, ThinkProject, VS Code, PyCharm, IntelliJ

Libraries: pandas, SciPy, Scikit-learn, NumPy, Matplotlib
